

This Project is currently in early access.

Early access Projects do not include any teaching content, like lesson plans, as the Project may change based on your feedback. However, other than teacher-specific content, the Project is content-complete and is **ready to be used in your lessons**.

Lesson plans exist as guides and exemplars, rather than instructions, as we want teachers to use our content in a way that best suits their teaching style, expertise and the requirements of their students. This means that if you have used a CreateBase Project in one of your classes before, you should have no problem figuring out how to teach this Project.

We recommend going through the content to familiarise yourself before delivering it to your students so that you can think about the best way of integrating it into your class.

Stay tuned for the full release of the Project, which will include the entire teaching content. In the meantime, if you have any suggestions to make the Project better or ideas for accompanying teaching content, then we would love to hear from you at admin@createbase.co.nz.
