CreateBase

FLOW BLOCKS: ACTIONS
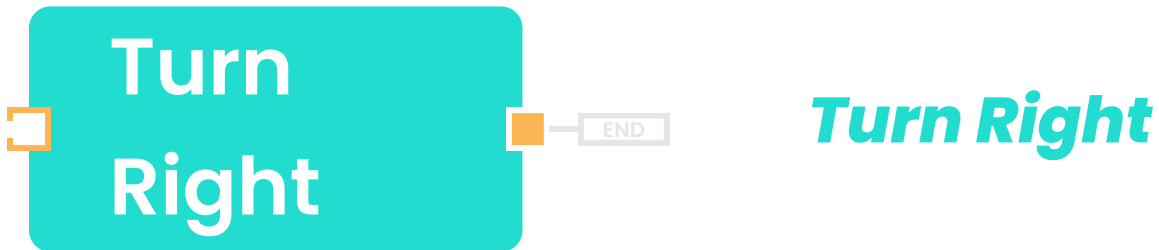

Move Forward | END

Move Forward

Instructs the robot to move forward one step. Chain multiple Move Forward blocks together to make the robot move forward multiple spaces in the maze, like so:
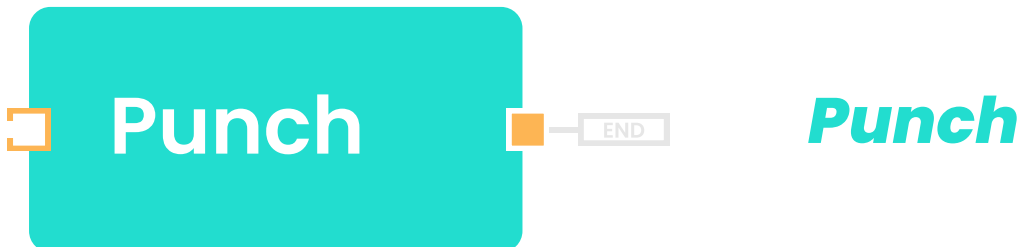

Start → Move Forward → Move Forward → END

Turn Left

Turn Left | END

Instructs the robot to turn 90 degrees to the left.

Turn Right

Turn Right

Instructs the robot to turn 90 degrees to the right.

Punch

Punch

Instructs the robot to perform a punch, breaking any fragile objects directly in front of it.

There may be certain walls in the maze that are fragile enough to be broken by the robot. When no path exists, make your own!
